

TEXAS OIL COMPANIES DESIGNED PROP 23 to KILL CALIFORNIA CLEAN ENERGY and AIR POLLUTION STANDARDS.

Big Texas oil companies and state politicians who receive oil company money designed Prop 23 to repeal clean energy and air pollution standards in California.

Those oil companies are spending millions on a DECEPTIVE CAMPAIGN to promote Prop 23 because 23 would allow them and other polluters to escape accountability and increase their profits.

PROP 23 is a DIRTY ENERGY PROPOSITION that MEANS MORE AIR POLLUTION and INCREASED HEALTH RISKS – *Vote NO.*

Prop 23's main backers, the Valero and Tesoro oil companies, are among the worst polluters in California. They're using 23 to *repeal portions of the health and safety code* that require them to reduce air pollution at their California refineries.

"Prop 23 would result in more air pollution that would lead to more asthma and lung disease, especially in children and seniors. Vote NO."

– American Lung Association in California

PROP 23 is a JOB KILLER – THREATENING HUNDREDS of THOUSANDS of CALIFORNIA JOBS.

Across California, clean energy companies are sprouting up and building wind and solar power facilities that provide us with clean power, built right here by California workers.

By repealing clean energy laws, Prop 23 would put many of these California companies out of business, kill a homegrown industry that is creating hundreds of thousands of California jobs, and damage our overall economy.

ORDERED CHANGES**

"California is the hub of innovation and investment in clean energy technologies and businesses. But Prop 23 would reverse the state's clean energy laws, jeopardizing billions in economic growth and hundreds of thousands of jobs."

- Sue Kateley, Executive Director, California Solar Energy Industries Association, representing more than 200 solar energy small businesses.

The independent, nonpartisan Legislative Analyst Office says 23 could *"dampen additional investment in clean energy technologies by private firms, thereby resulting in less economic activity than otherwise would be the case."*

PROP 23 WOULD JEOPARDIZE:

- 12,000 California-based clean energy businesses
- Nearly 500,000 existing California clean energy jobs
- More than \$10 billion in private investment in California

PROP 23 WOULD KEEP US ADDICTED to COSTLY OIL – *Vote NO.*

By killing incentives for clean energy, 23 reduces choices for consumers already facing high gas and electricity costs.

"Prop 23 would keep consumers stuck on costly oil and subject consumers to spiking energy prices."

- Consumers Union, publisher of Consumer Reports Magazine

OUR OIL ADDICTION THREATENS NATIONAL SECURITY. PROP 23 MAKES IT WORSE.

Prop 23 would harm efforts to reduce our dependence on foreign oil that comes from countries that support terrorism and are hostile to the United States.
